Profile

Young Information Technology enthusiast, knowledgeable in troubleshooting of both software and hardware, eager to expand his scope of comprehension into software design

I have been exposed to technologies like Java and Android, SQL, C# and now recently Flutter. I have enjoyed the development of my skills and built a couple of websites. Furthermore, I am still keen on developing my skills and competency in the programming language.

Exploration of any vacancy in the field of Information Technology is but a building block and milestone in my professional career, also in the bigger picture of my ambitions.

Education

2013 - Ongoing
Central University of Technology

- N.Dip Information Technology (Software)
 - One module from completion

2007 - 2011
Brebner High School

- Grades 8-12

Interests

- Technology

For years now, I have been helping a few people, mostly family and friends with technical support for their personal computers. Maintenance of Software, including but not limited to Windows Operating System and Microsoft Office. I have also helped Steers and Debonairs Botshabelo.

- Networking

Learning from people is something I do not take for granted. I enjoy a lot of one-on-one conversations, watching documentaries and reading

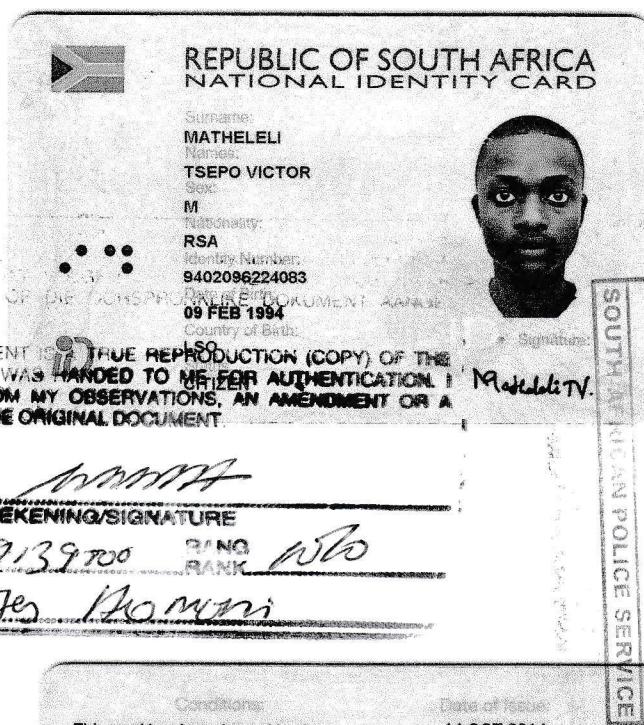

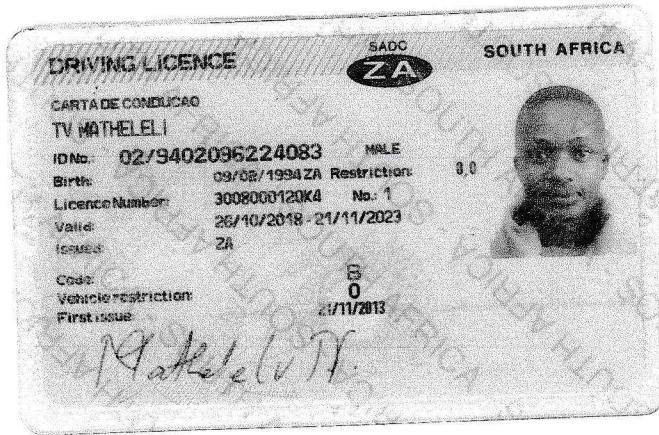

a variety of books and articles. I have also relished the opportunity to teach and lead. Have been a master of ceremonies for numerous youth musical shows at Grace Chapel Church. Leading church service programs too.

- Spirituality

I am on a constant search for happiness. I have learned that true happiness stems from morals, principles and values that I have defined to myself. Also, failure to being happy can lead to deep depression and lack in all forms. Hence I have taken a lot into meditation and understanding of myself.
